SMART CITIES WEBINAR SERIES: DIGITAL CONNECTIONS

JUNE 17, 2020

WITH PRESENTATIONS FROM

Microsoft

RATKO MUTAVDŽIĆ

Cloud Services Director - CEE Public Sector

Ratko has worked in several management positions within Microsoft, driving solution developments for the Public Sector, starting in a consulting practice and then leading several different sales and technology teams. Currently he is working on a number of advanced technology and platform topics, like Data Science and Artificial Intelligence, enabling them through the use of cloud platforms and technologies. He is the author of number of published papers on different aspects of technology.

Cisco

RĂZVAN ATIMARITI

Collaboration Product Sales Specialist

Razvan joined Cisco 10 years ago upon Tandberg's acquisition and came with a rich experience from companies like Vodafone, Metro Cash & Carry or Sharp. He graduated "Politehnica" university in Bucharest as an engineer in 1994 and achieved his Master in Business Administration at Kennesaw State University in 2008. With over 25 years' experience in sales and distribution, Razvan is passionate about cutting edge technologies.

RapidSOS

Jessica Reed

Vice President – Global Accounts

RapidSOS is a middleware tech platform that provides public safety with access to relevant situational awareness data from smart phones, IoT devices and connected platforms during an emergency event. Prior to leading the company's expansion into the global markets, Jessica focused on business development for RapidSOS' U.S. business where she specialized in bringing citizen facing technology companies onto the RapidSOS platform. Jessica has a background in finance and management of early stage, high growth companies.
