GLOBEFISH FISHINFO Network

Eurofish activities

Deals with fish/seafood in the whole chain from fisher/farm to consumer within fisheries, aquaculture, processing, trade and markets Disseminates information and analyses through

- Studies, reports, industry guides
- Our Eurofish Magazine and website <u>www.Eurofish.dk</u>

Carries out capacity building activities, organizing conferences, workshops, network and business-to-business meetings

Promotion and advertising activities - present at seafood fairs Create, coordinate, carry out projects - work with us!

Major funding sources: EU Horizon Europe, EU commission and FAO

Four project examples

SAFE: SmartAqua4FuturE

Reduce environmental impact in freshwater aquaculture by circular economy approaches. Valorisation of solid and liquid waste

EUMOFA: European Market Observatory for Fisheries and Aquaculture Products Market intelligence tool of the EU fisheries and aquaculture sectors

FishEUTrust: Enhancing Trust in EU Fish Sources. Supply chain innovation

Tools to maximize trust - quality, safety, and traceability of seafood products

Algae pro: Demonstrate market accessibility and presence of sustainable and innovative algae products and solutions in the Baltic and North Seas
