<b>Field of activity</b>	Pints and Paints products
<b>Company profile</b>	<p>At National Paints we strive to provide products that help make people's lives more vibrant and colorful.</p> <p>Since our founding in early 1969 at Amman, Jordan, we have been moving forward at a rapid pace by capitalizing on all growth opportunities and improving our operating efficiency so as to expand on our global presence and sharpen our product portfolio. The rapid development of the U.A.E. since it was formed in 1971 has resulted in a massive construction boom, with the nation developing from a collection of small towns into the modern cities of today.</p> <p>The country has established an infrastructure to rival that of any developed country in the world.</p> <p>With so much building activity taking place, there has also been the need for paints, be it for road marking, protecting buildings or simply for decoration. We are proud to say that our company has developed alongside the U.A.E. to become a major player in the global market. Product quality and customer service are the prime reasons for the company's success. All the raw materials and each batch of paint undergoes rigorous laboratory testing to ensure it is of the highest standard. We also ensure that all orders are fulfilled rapidly, with computerized color tinting system, which is able to immediately produce paints in any chosen color. Thereby, National Paints has today become the largest paint consortium in the Middle East with an annual production capacity of 200,000 tons and more than \$200 million in annual sales. We have around 54 distribution centers located worldwide to serve our customers in the key markets, with paint solutions to meet their needs.</p> <p>To conclude, I would like to emphasize that National Paints has a clear-cut vision of the future and will always thrive to make its presence deeper and stronger in the local and international markets. A consistent growth pattern will definitely be maintained.</p>

<b>Company</b>	MASAFI COMPANY LLC
<b>Representative</b>	Zahid Saleem Shah, GM International Markets & Exports
<b>Company profile</b>	<p>Water in desert is the most precious treasure. Nature has been kind to us by blessing this great land with a perennial source of deep earth water. Hence. It becomes our responsibility to treat this blessing with great love and respect. A group of people with vision and foresight took the lead to protect this treasure and bring the purest form of water to the people just the way nature meant it to be. And thus, Masafi was born.</p> <p>To some it's just a bottle of water. To others it's a story of people dedicating their lives to protecting the stunning landscape and the sacred source of water flowing beneath it for years, so that generation after generation can quench their thirst with nature's purest and best.</p>
