

México (MX)

Passport for goods

Last Modified : 06/03/2026 10:41

Country/Customs territory information is posted based on reports and notifications gathered from National Guaranteeing Associations and public sectors, the ATA Secretariat tries its best to make the data up-to-date, but ICC, in any case, is not liable for the accuracy of the content posted

National Guaranteeing Association

Mexico City National Chamber of Commerce (CANACO)

Date of accession to the ATA system

16/05/2011

Field of application notified

ATA Convention

Convention on "Professional equipment"

Convention on "Commercial Samples"

Convention on "Exhibitions and Fairs" with the following reservation: *"on acceding to the Customs Convention concerning facilities for the importation of goods for display or use at exhibitions, trade fairs, meetings or similar events, the Mexican Government pointed out that it did not consider itself bound by the provisions of Article 6.1 (a) of the Convention relating to the collection of import duties on samples which are representative of foreign goods, in accordance with Article 23 of the Convention"*.

Application under national laws

Goods temporarily imported into Mexico under the cover of ATA Carnets must be re-exported within 6 months.

The final date of re-exportation may be extended for a further six month maximum, provided that the request for such an extension is made at least 2 months before the expiry of the first 6-month period.

If at the time of extension application the validity of the carnet does not allow a further 6 full months, a replacement carnet issued with the intention to extend the stay of goods beyond the validity of the original carnet can be used, but please bear in mind, that the extension can be made only once.

Detailed procedure on the extension can be found at the Mexican NGA's website. For any questions/requests, please contact the NGA directly by email: comint1@ccmexico.com.mx; eriosj@ccmexico.com.mx; karagonc@ccmexico.com.mx.

Territorial coverage

Other applications

ATA Carnets **are not** accepted for postal traffic.

ATA Carnets **are not** accepted for transit.

ATA Carnets **are** accepted for unaccompanied goods.

Languages in which Carnets should be completed

ATA Carnets may be completed in Spanish, English and French. The Customs will require a translation when ATA Carnets are completed in any other language.

Replacement carnet

See the Application under national laws.

Regularization fee requested by Customs

Customs offices

The 49 Customs offices on the Mexican Customs territory are entitled to handle ATA Carnets.

Passenger terminals will process ATA Carnets at any time. Concerning cargo areas, holders may request schedule information to CANACO or their Mexican Customs broker.

Special observations

Update 6 March 2026:

Following the communication on 3 March about the operational pause of the Mexican NGA's issuing service and the registration service for foreign carnets, the Secretariat and WATAC leadership have been chasing CANACO for clarifications.

Please find below some explanations given by CANACO.

- **Re-exportation Guarantee:** We confirm that goods already entered under the cover of an ATA Carnet may be re-exported without penalties arising from this operational pause. Every carnet with an active registration must be processed in accordance with current procedures, without exception.
- **Transit:** The suspension exclusively affects the issuance of new carnets and the registration of those that did not complete their process prior to the notification (which requires a notice of entry into Mexico at least 7 business days in advance).
- **Coordination with Customs:** The customs authority has been formally notified that the suspension refers to the issuance of new export carnets and new import registrations; therefore, this does not interfere with the operational handling of carnets that are already active.

Update 3 March 2026:

Based on a letter received on 2 March, the Mexican NGA notified operational pause of the ATA Carnet in Mexico, effective Monday, 2 March 2026. The pause refers to:

- Suspension of Issuance: No ATA Carnets will be issued for temporary exports from Mexico.
- Suspension of Registration: Foreign ATA Carnets will not be registered for entry into the country.

The WATAC leadership and the Secretariat will seek an urgent meeting with CANACO, the NGA, regarding its unacceptable unilateral decision without advanced notification or consideration of the serious ramifications this will have on holders and the guaranteeing chain. We will keep members informed for any updates.

1. Special conditions concerning the operation of the ATA System in Mexico

National guaranteeing organizations **must** advise their holders wanting to use their ATA Carnet in Mexico that they **must inform the Mexican Customs authority** (Agencia Nacional de Aduanas de México - ANAM) of their intention to visit Mexico **before** their arrival on the Mexican Customs territory.

To that end, they should use the "Sistema de Registro de Cuadernos ATA" (ATA Carnet registration system) available on CANACO's Website: <https://www.canacocdmexico.com.mx/carnet-atav3/web/index.php?r=importaciones/create>

The information to be provided in the registration system is the following:

1. Type of ATA Carnet (original, duplicate, replacement)
2. ATA Carnet number
3. Substitute/replacement ATA Carnet number (if applicable)
4. Name of the guaranteeing organization
5. Holder's name as per Box A of the green cover.
6. Authorized representative's details as per Box B of the green cover.
7. Date of issue/Date of expiration of the Carnet (to be entered year/month/day)
8. Intended use of the goods (as indicated in Box C of the Carnet)
9. General description of the goods
10. Total number of goods/items as per column 3 of the General List

11. Total value of the goods as per column 5 of the General List
12. Means of transportation (sea, air, or road)
13. Purpose of visit to Mexico

2. Foreign Trade Rules: penalty in case of non-re-exportation of the goods before the expiry of the six-month period provided by Mexican Customs Authorities

NGAs must advise their holders that, following an amendment in Mexico's General Rules of Foreign Trade which entered into force on 29 August 2012, a penalty will be imposed by Mexican Customs on holders failing to re-export their goods from Mexico within the six-month period provided for the temporary admission of goods in Mexico (Notification on the implementation of the ATA System in Mexico – document 550-1/1408).

The first offence will incur a penalty amounting to **\$2,310.00 Mexican Pesos** (approx. €117) if the goods are re-exported immediately. Should the same holder commit the same offence another time, the penalty will then amount to **\$3,480.00 Mexican Pesos** (approx. €176).

The penalty will then increase by the same amount for every fifteen-day period that will elapse between the end of the six-month period and the date of effective re-exportation of the goods from the Mexican Customs territory. The amount of the penalty will not exceed the value of the goods.

To avoid such penalty, the Carnet holder (or representative) should request an extension of the six-month period to CANACO **two months before the deadline**. Please see <https://carnet-ata.org/nuestros-servicios/prorrogas-info/> for detailed information about the procedure and requirements.

Moreover, to obtain the clearance of the goods covered by the Carnet outside the six-month period, the holder will have to contact CANACO which will inform Mexican Customs that the goods can be cleared. This service at CANACO is free of charge.

3. Registration of Mexican companies working with ATA Carnet

CANACO holds a registry of companies in Mexico that offer services for the importation and re-exportation of goods under cover of ATA Carnets. This service is intended to help foreign companies promote their goods and services. The list of companies authorized to process Carnets in Mexico can be found contacting by email directly to comint1@ccmexico.com.mx; comint1@camaradecomerciodemexico.com.mx.

Benefits:

- The registry provides a list of companies that can represent foreign ATA Carnet holders on the Mexican territory.
- It is intended to reduce risks when using foreign ATA Carnets in Mexico.
- It is a support-service offered by CANACO to foreign businessmen wishing to contact representatives in Mexico.
- **In this case, it is the Mexican company that will be responsible for sending the prior notification to CANACO and not the Holder.**

The Characteristics:

- The registry is: **mandatory** for any company established in Mexico that processes the importation or re-exportation of goods under cover of foreign ATA Carnets.
- If the company is not registered, CANACO will not issue the prior notification required by Mexican customs for the clearance of foreign ATA Carnets.
- Any Mexican company can register.

The registry of companies applies to:

- Mexican companies that process importation or re-exportation operations under cover of ATA Carnets when the goods enter the country by cargo or through the services of a freight forwarder.

The registry does not apply to:

- Foreign companies or passengers who directly import or re-export their goods under cover of ATA Carnets (passengers' area).

For further information, please contact CANACO.
