

ACADEMIA			INDUSTRY		
Academic	Institute	Laboratories	Robot Type	Company	Specifics
Joint Institutions	NCCR Robotics	EPFL	Industrial Robots	ABB	Industrial robots for utility, industry, transportation and infrastructure
		ETH Zurich		KUKA AG	Chinese-owned German manufacturer of industrial robots with strong Swiss presence
	University of Zurich	GE Inspection Robotics		American owned Swiss robotics startup ALSTOM producing power plant inspection	
	IDSIA	ANYbotics		Mobile legged robots for multi-sector applications	
Wyss Zurich	University of Zurich	ETH Zurich	SenseFly	Agriculture, engineering and humanitarian aid survey drones	
	ETH Zurich		Verity Studio	Entertainment drones	
University Laboratories	ETH Zurich	Multi-Scale Robotics Lab	Drones	Aerotain	Drones for experiential advertising
		Autonomous Systems Lab		Photokite	Flying quadcopter for photography
		Sensory-Motor Systems Lab		Flyability	Safe, collision-tolerant industrial inspection robot
		Rehabilitation Engineering Lab		Wintra	Drones for aerial data collection
	Agile and Dexterous Robotics Lab	Research Service Robots	K-Team	Mobile robots for use in advanced education and research	
	Mobile Health Systems Lab		F&P Personal Robotics	Collaborative industrial robots and personal service robots	
	Vision for Robotics Lab		Ophthorobotics AG	Automated system performing safe and precise injection for eye surgery	
	Robotic Systems Lab		Hocomo	Robotic and sensor-based devices for functional movement therapy	
EPFL	Laboratory of Intelligent Systems	Nano Robots	YouRehab	Innovative rehabilitation devices	
	Learning Algorithms and Systems		Magnebotix	Magnetically driven micro-agent RodBots	
University of Zurich	Robotics Systems Laboratory	Social Good	Femto Tools	High-precision instruments for mechanical testing and robotic handling in micro and	
	Robotics and Perception Group		WeRobotics	Organization creating robotics networks of social good	
			Software Solution	Rupyuta Robotics	Cloud enterprise-level solution for robotics
				Pix4D	Software for professional drone-based mapping
			BlueBotics	Autonomous navigation system	
			Sensors	Go Pro Skybotix	American-owned Swiss startup producing Visual-Inertial (VI) sensor technology
Distran Switzerland	Advanced acoustic sensors for industrial applications				
Medical Wearable			Noonee	Wearable, ergonomic, mechatronic, devices	
			TWIICE	Exoskeleton	
			MyoSwiss	Soft exosuit	
			SensArs Neuroprosthetics	Exoskeleton helping amputation or nerve damage recovery
