ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION

**ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION**

Türkiye

Technological Advantages

- Efficient and up to date equipment capacity
- Production flexibility
- Production capacity in international standards
- Strong industrial structure
- Product diversity
- Well trained and experienced work force

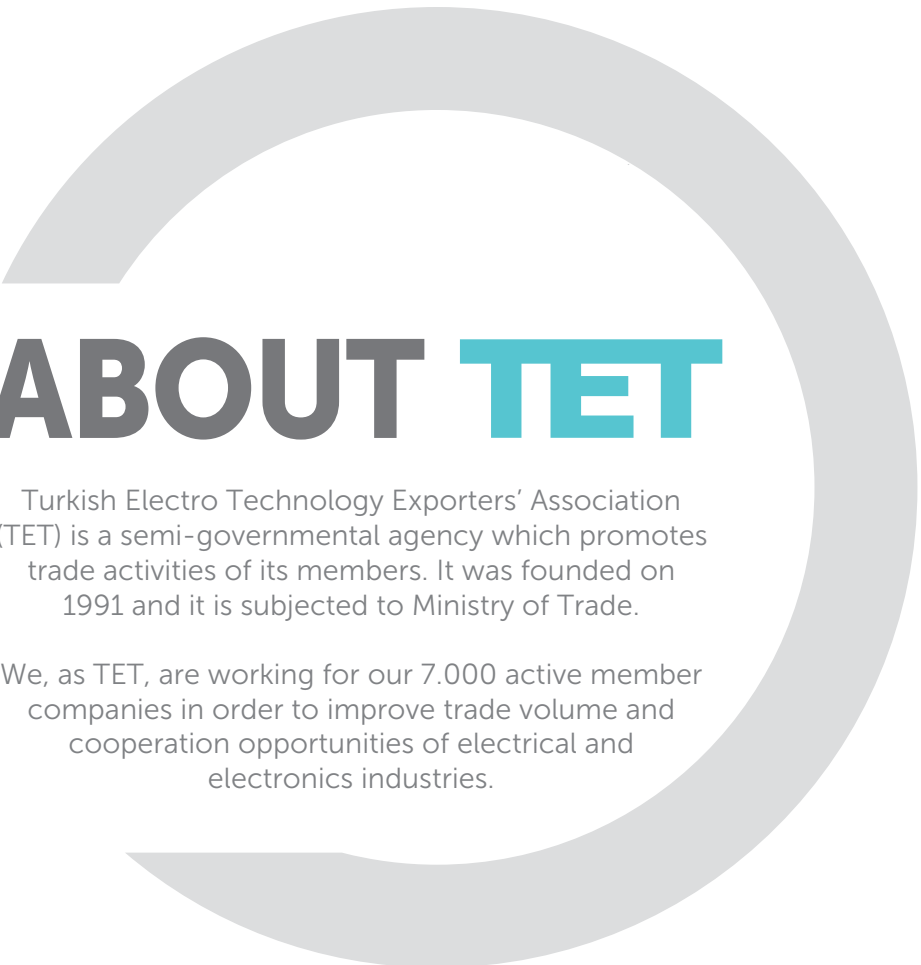

Geographical Advantages

- Short time of delivery
- Neighboring the largest markets in the world
- Largely suitable for both land and marine transportation
- Well developed logistics network

Market Advantages

- An appealing conjuncture for both foreign and domestic capital investments
- EU Customs Union Membership
- Increased competitiveness in international markets
- New employment opportunities
- Start-up friendly legal arrangements
- Increased domestic market demand

ABOUT TET

Turkish Electro Technology Exporters' Association (TET) is a semi-governmental agency which promotes trade activities of its members. It was founded on 1991 and it is subjected to Ministry of Trade.

We, as TET, are working for our 7.000 active member companies in order to improve trade volume and cooperation opportunities of electrical and electronics industries.

ACTIVITIES OF TET

CO-OPERATION

Developing co-operations with international institutions

FAIRS

Organizing and participating in trade fairs

DELEGATIONS

Arranging "Trade Delegations" & Organizing "Buying Missions"

MONITORING & REPORTING

Monitoring and providing sectoral data, reports and market research analysis

Türkiye

ABOUT US

Founded with the purpose of transformer production in 1982, Elektra Elektronik have been proposing transformer, reactor, and energy quality solutions across the world with a top notch quality perception. Maintaining both production and design with its own human resources and facilities, our Company have been recognized as one of the pioneer R&D companies with its unique experience and expertise in the Turkish Electronic Industry. Providing solutions throughout Turkey and across the world, our Company inaugurated office in China. Elektra have been recognized as a major exporter company with a portfolio of more than 50 countries. Today, Elektra's solutions are being used in industrial, railway, medical, automation, military, naval and such related systems in 5 continents.

PRODUCTS AND SERVICES

- Low Voltage(LV) Transformers
- Medium Voltage(MV) Transformers
- LV Harmonic Filter Reactors
- LV Shunt Reactors
- LV Line Reactors
- LV Sinusoidal Filters
- Capacitors
- Discharge Reactors
- MV Shunt Reactors
- MV Current Limiting Reactors
- MV Harmonic Filter Reactors
- Active-Passive Filter
- Thyristor Module.

ABOUT US

ENTES is a technology brand, developing solutions Wherever Energy Is..

ENTES is an European technology company that works ardently since 1980 to manage the energy where energy is valuable and overcosting.

As one of the leading enterprises in shaping the way of conducting business, ENTES transforms energy into a manageable concept so that business can be conducted at the lowest cost, thus providing new economical opportunities.

Based on its own resources, ENTES takes advantages of qualified brain power and hard work with an aim of being pragmatic and also open to technological developments in the world. Hundreds of thousands of companies around the world manage the energy by using ENTES solutions.

- Consistent growth since 1980 the year it was founded,
- High quality standards and international certificates in world classification,
- Experience for overseas markets over 107 countries and a worldwide-recognized brand in the industry with office in Germany, Greece and India,
- Powerful and accredited "Research and Development Centre" in the fields of Energy Efficiency and Quality,
- Yearly 120 person/hour function, 2640 person/hour type, 480 person/hour field tests applied for each new device at R&D level,
- Yearly 2,000,000 devices production capability in production plants with 12,000 m² closed area where state-of-the-art technologies are used.

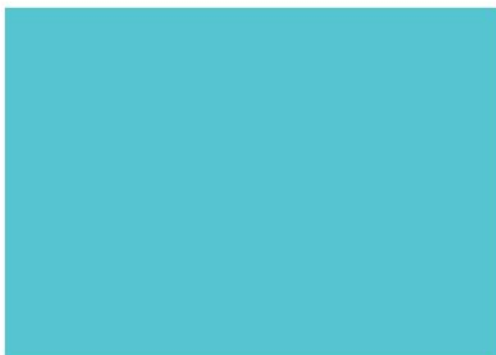

PRODUCTS AND SERVICES

Energy Analyzers, Multimeters, DC/AC Ammeters, DC/AC Voltmeters, Power Factor Controllers, Energy Meters, Quality Analyzers, Power Capacitors, Shunt Reactors, Harmonic Filters, Capacitor Duty Contactor, Current Transformers, Thyristor Switches, Power Supplies, Control Transformers, Isolating Transformers, Time Relays, Astronomic Time Relays, Phase Failure Relays, Current Monitoring Relays, Voltage Monitoring Relays, Multi-Function Time Relays, Converters/Gateways, Energy Management Softwares

ABOUT US

Federal Elektrik, founded in 1990 is active in production and automation of Low Voltage Switchgear Products and Natural Gas Meters. Federal Elektrik is established on an area of 25.000m² . Thanks to the activities of the group companies, Federal was registered as a "Recognized Brand" in the world in 2008.

There are 4.000 kinds of products and 35.000 different parts production in the facilities of Federal Elektrik. Federal Elektrik exports 50% of its production to more than 50 countries all around the World.

Growing in a short time, Federal Elektrik has become one of the leading manufacturers of Low Voltage Switchgear in the World. We are actively working in tender business as our brand is approved by Electricity Distribution Company all around the World.

PRODUCTS AND SERVICES

MOLDED CASE CIRCUIT BREAKERS
EARTH-LEAKAGE CIRCUIT BREAKERS
TORODIAL & RECTANGLE
TRANSFORMERS
AIR TYPE CIRCUIT BREAKERS
AUTOMATIC TRANSFER SYSTEMS
MINIATURE CIRCUIT BREAKERS
RESIDUAL CURRENT CIRCUIT
BREAKERS

ABOUT US

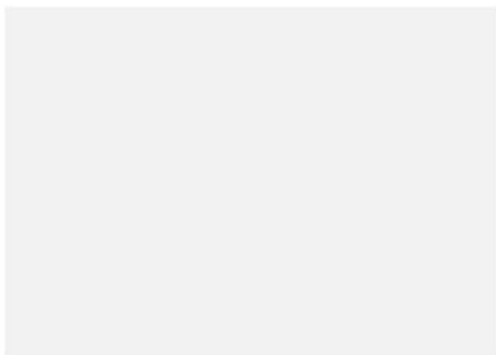

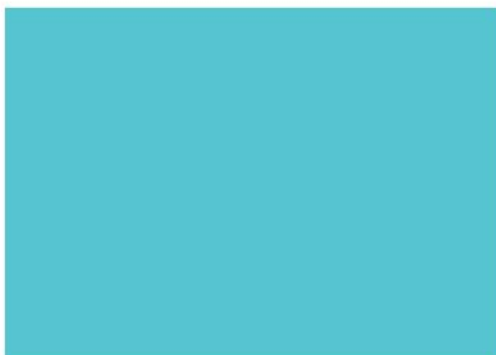

Our company has been founded under the name of "Gursas Genel Uretim Sanayi" (Gursas General Manufacturing Industry) in 1980. Initially, we started manufacturing mechanic parts of electronic device boxes. With the rapid development of the electronic sector, Gursas started to work as a solution partnership in special projects with its customers. Gursas created its own design and manufacturing technology of electronic device boxes and increased its manufacturing capabilities by following technological innovations and incorporating modern steel plate working machines. We are proud to have a total quality system approach with all our organizational structures and always ready to improve ourselves. To ensure contribution to the national economy by turning the knowledge build-up and experience, it attained as a leading company of the industry into a value together with its customers and suppliers in a platform of constant development, under the principles of honesty and reliability.

We manufacture enclosures, panels, cabinets, consoles, rack cabinets from steel, stainless steel and aluminum for outdoor and indoor usage. Our strength is design and tailor made production capabilities and experience. We can work up to 6mm thickness on the raw material. Mainly we work with Telecommunication, IT, Energy Distribution, Defense Industries Hospitals and Financial Institutions. Our solutions are working efficiently on different climates and industrial environments with double layered walls.

PRODUCTS AND SERVICES

- Outdoor Cabinets
- Rack Cabinets
- 19" Cabinets
- Electrical Enclosures
- Control Panels
- Consoles
- Ceiling Type Panels
- Operator Consoles
- Heavy Duty Rack Cabinets
- Monitoring and Controlling Consoles
- Sub Racks

FEWA WATER PUMPS SYSTEMS

ABOUT US

HÜRPOMPA was founded as part of the Group in 2002, which was awarded the best service provider for plunger pump in its region by Alarko-Carrier with its strong experience and expertise.

Providing the most economic and environment friendly service to fulfill our customers' expectations is at the core of our values.

With this vision in mind, we have created FEWA brand in 2018 to spread our experience in deep well drilling, water compression, agricultural irrigation and service operations by manufacturing plunger pump, industrial centrifugal pump and water booster domestically.

Considering the scarce water and energy resources, we aim to manufacture our pumps in the most effective way to provide "low cost, high efficiency" and "low total cost of ownership" for our customer. With an environmentally conscious focus, we perform R&D activities to find ways to solve our customers' water and system problems in a fast and influential way.

HÜR Group invested €1,000,000 and partnered with universities and several NGOs to manufacture the pumps of future.

With FEWA, we will maintain our vision of providing quality and efficient pumps for the world, starting with Eastern Europe.

MONOKON ELEKTRİK A.Ş.

ABOUT US

Monokon Electric is a family company established in Konya in 2019 and operating on an area of 20.000 m², prioritizing product quality and customer satisfaction. We are working to expand the active sales network throughout Turkey. We are focused and equipped to achieve the objectives set out for our exports targets we have set.

PRODUCTS AND SERVICES

Our product range includes the following 3 main products:

1. 12/24/36 kV Air insulated metal enclosed modular switchgears
2. High Voltage+Low Voltage Monoblock Concrete and sheet Transformer and Distribution Kiosks
3. Auxiliary components

ÖREN KABLO

ABOUT US

Ören Kablo entered into cable manufacturing sector with manufacture of coaxial cables in 1979. Ören Kablo manufactures a wide range of products such as cable TV, digital satellite, data cables, interactive TV cables, CAT5,CAT6 LAN cables, signal command cables and fire warning cables; and at the same time, offers to the use of its customers the "halogen free" cable, for all the product range. Having a production capacity of 58 million meters coaxial cable annually, Ören Kablo currently meets 70% of Turkey's digital broadcasting cable need by itself. Apart from its achievements in the Turkish market, Ören Kablo also exports to Europe, Middle East and North Africa.

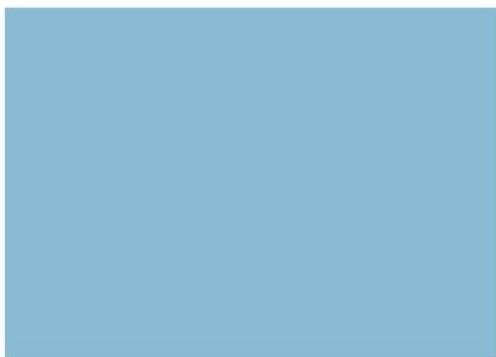

PRODUCTS AND SERVICES

Coaxial Cables for CableTV, internet applications and satellite master antenna TV applications (Priority Product) (8544420), RF and Microwave type Coaxial Cables for Wireless Communications systems (8544420), CCTV and Security Cables (854420009019), Indoor Telephone Cables (854449), Data Cables (85444995), Fire Alarm Cables (85444991), Signal and Control Cables (85444995)

PAMİR LIGHTING

ABOUT US

PAMİR ELEKTRİK is located in the industrial city of Konya, in the heart of Anatolia. Created in 1974, it was manufacturing electrical equipment and since 1990, it shifted production towards the lighting sector, and became a specialist in this field. Company has been providing professional solutions for architectural and industrial lighting with the demands from our customers. We do use the highest possible quality components (Osram, Tridonic, Lumileds etc.) on our products and provide the shortest delivery terms with competitive prices to our customers. It ranks today among the most performing Turkish companies in the sector, which offer a large array of products, combining aesthetic, quality and competitive price.

Strengths:

We are able to conceive and offer products which combine both aesthetic and competitiveness.

All products are thought in our R&D department, by means of the latest soft wares.

Every order gets our personal attention and care, we have been in the business for nearly 40 years. Repeated orders are the best testimony for our quality and seriousness.

PRODUCTS AND SERVICES

Accessories to be fitted either on the ceiling (suspended, recessed or surface mounted), or on the wall, all made with the finest materials and craftsmanship available.

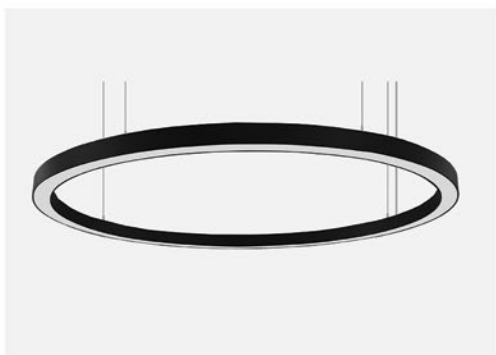

Range of products:

- LED and T5 fluorescent lighting fixtures for offices and shopping places,
- IP65 LED and T5 highbay lighting fixture,
- IP65 LED, T5 and T8 Waterproof fluorescent lighting fixtures,
- Downlights, Track Lights
- Curved lighting fixtures,
- Glop lamps,
- Wall lamps,
- Motion sensor,
- Motion sensor lamps.

SAHRA KABLO

ABOUT US

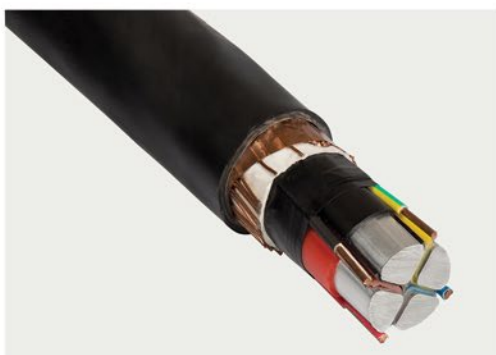

Sahra Kablo was established in Istanbul, in 1968. For over 50 years, we have been supplying high quality Aluminium energy cables and conductors to electric utilities, engineering, procurement and construction companies to over 35 countries. Despite rapidly changing market conditions, we prefer to be boutique manufacturer and we are capable of producing custom designed cables. We respond to the variable demands of customers in market and are on the way to be a global company by increasing our production capacity.

We offer to the market all types of Aluminium Power Cables with Solid, Stranded or Flexible (class 5) Conductors.

PRODUCTS AND SERVICES

- Aluminium Overhead Conductors
- Aluminium Aerial Bundled Cables
- Aluminium Underground Cables
- Aluminium Mining Cables
- Aluminium Railway Cables
- Aluminium Welding Cables
- Aluminium Shore Cables
- Aluminium Shipyard Cables
- Aluminium Wind Turbine Cables
- Aluminium Solar Cables

TD ELEKTRONICS

ABOUT US

TD Elektronik company has been supplying LED Lighting Systems components since 2008. As of today, TD Electronics continues to serve its product range in the fields of LED Lighting, PCB Design and Supply, LED Based Advertising Solutions, Lighting Measuring Devices with the awareness of preserving its status as a leading company. Collaborating with leader brands of the industry such as, Nichia, Philips, Lumileds, Ledvance etc...

Operating with 100% Turkish capital, the company has specialized in the production of LED Modules and LED Optics with TD Lighting Solution company in 2012 as well as component supply. It designs LED lighting modules with its own R&D and Design Engineers, and also carries out Thermal and Photometric tests with the latest system laboratory equipment. With the investment of three fully automatic typesetting lines, it produces without human touch. It provides fast and high quality solution to its customers by continuing its typesetting production in a fully ESD protected area. It provides design, molding process and mass production services to its customers for the production of LED Optics.

PRODUCTS AND SERVICES

Product and Service:

Supply of LEDs : Nichia – Lumileds
- Seoul

LED Module Design and
Manufacturing

LED Optic Design and Production

Supply of LED Driver: Philips –
Ledvance - Texrun

Supply of LED Diffuser and Cutting:
Yongtek – Sewon – A.L.P.

Supply of LED Strip and Neon Flex:
Pairo

Supply of Measurement Systems:
UPRtek – Viso Systems

ABOUT US

TEC Global provides a wide range Electrical & Automation System solutions and services to Utilities, Industries, Power Plants, Infrastructure & Transport including;

- Substation Solutions (HV/MV/LV Solutions)
- HV Equipments and Transformer Supply
- MV Switchgear and Equipment Supply (Breaker, Contactor and Protection Relay)
- LV Switchgear & Panel Design, Engineering and Supply Support
- Substation Automation, SCADA and Automation Systems
- Mobile Substation & E-House Solutions
- Power Transmission & Power Distribution Solutions
- Primary and Secondary Engineering
- Technical Project Management

With a remarkable experience, engineering capabilities and customer-oriented approach, TEC Global commits to support globally his clients in all stage from design to installation and after sales with solid technical support and competitive commercial contribution.

TEC Global aims to become a value-added, trust-based and loyal partner of his clients as a one-stop shop by being able to reply all demands of his clients in timely-manner and with suitable & competitive solutions.

TIMSAN TRANSFORMER

ABOUT US

Timsan produces outdoor / indoor power transformers from 25 kVA to 20000 kVA in power and from 6 kV to 36 kV in voltage, oil immersed type, hermetic or open-atmosphere (oil expansion reservoir) and from 25 kVA to 10000 kVA Dry Type Cast Resin transformers. The products are economical, highly efficient, and secure in accordance with the standards and lists of conditions in force.

PRODUCTS AND SERVICES

- Power and Distribution Transformers
- Oil Filled Transformers
- Dry Type Cast Resin Transformers
