

FAQs Stand layout

The exhibitor is responsible for stand equipment and decoration. Exhibitors are obliged to decorate their stands carefully and in good taste. Stands which do not conform to the accepted standards will not be approved by the organizer until the necessary changes have been made.

Unacceptable advertising will be similarly affected.

The overriding principle for the design of all exhibition stands is transparency. All open sides of the stand must be freely accessible. This means that at least 50% of the respective gangway side must not be obstructed by structures or fittings.

The minimum height for exhibition stands is 2.50 m.

The backs of stand partition walls, advertising carriers or other design elements facing neighboring stands and exceeding a height of 2.50 m must be of neutral design and clean and must not contain any text or graphics.

The maximum stand height for BIOFACH is 5.00 m.

The maximum stand height for VIVANESS is 5.50 m.

Stands are to be provided with an adequate floor covering (e.g. carpet, parquet, PVC) by exhibitors. The name and address of the stand holder are to be clearly indicated on the stand for the full duration of the event.

The exhibitor agrees to erect a 2.50 m high own stand partition on all closed sides of

the stand space. If the exhibitor does not use his own stand partition or a rental stand, own stand partition walls are to be ordered from the ServicePartners. Stand partition walls are available for hire in wood or plastic-coated finish or without wallpaper. Walls without wallpaper must be papered and painted.

Chipboard panels (height approximately 2.50 m) are permanently fixed to the hall walls by NürnbergMesse. In order to avoid adhesive residues, you may only use Tesa Powerstrips. If you have any questions, the respective booth construction companies mesomondo and Wörnlein are at your disposal. These panels are wallpapered and painted white (note: use special paste for wallpapering over this), but may show signs of use. They therefore count as partition walls that are not wallpapered and are charged accordingly. The wallpaper must

be stripped by the exhibitor after the event or the walls will be stripped and cleaned at the exhibitor's cost. Wallpapering, painting and stripping can be ordered.

If a rental exhibition stand is not used, a fascia (0.30 m high) must be fitted on all open sides of the stand space. The fascia can be omitted if the necessary stand quality is assured in some other way. Stand partition walls, floors, hall walls, pillars, installations, fire-fighting equipment and other permanent hall fixtures must not be pasted over, nailed, painted or damaged in any other way. The exhibitor is responsible for any damage and will be charged with the cost of repair. Any pillars, installations and fire-fighting equipment located within the stand are part of the allotted stand space and must be accessible at all times.

Floor coverings in the stands are only to be fixed with double-sided adhesive tape (following tapes are to be used: tesafix no. 4964).

If the remains of other adhesive tapes must be removed from the hall floor after the end of dismantling, the cleaning costs will be charged to the exhibitor. The same applies to the remains of carpets etc.

The exhibitor agrees to comply with these conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.
